

# Team Report

24 January 2023 / 10:00 AM

## Members

Amirtaha Farshbaf, Ata Dibazar, Ehsan Fakhrazadeh

## Challenges

First, the problem of simultaneous rotation of two engines and simultaneous calculation of their RPM was investigated and by making changes in the receiving functions and the RPM of each engine was displayed on the serial monitor.

Added start and stop of both motors via bluetooth and serial monitor.

## Next Goals

Add rotation to the right and left via Bluetooth
